

AKTITRON S 16

LIGHT INTEGRATOR

The AKTITRON light integrator with photo cell (light quantity control) is for universal use.

It serves for precise exposure of UV sensitive films and emulsions, can compensate voltage variations, reflector contaminations and tolerances with metal halide lamps.

Technical data:

Standard version	Microcomputer with 15 programs and 1 vacuum program. Display: exposure / vacuum / program with 3 and 2 digits. Touch screen: start / stop / measure. Photo cell with UV filter, cable 5 m. Control line 2,5 m to exposure lamp, with KG-plug.
Features	Version A: complete unit with casing. Version E: recessed / built-in version. High rate of repeatability. Permanently stored exposure values/programs. Call of current lamp intensity. Without photo cell useful as exposure timer (999 seconds).
Colour	RAL 5002, blue
Manual instruction	German or English

Accessories/Options

- Photo cell with 10 m cable
- Photo cell with 15 m cable

Article No.	Description
MA11042	AKTITRON S 16 A / 230 V - KG-cable and photo cell with 5 m cable (with casing)
MA11046	AKTITRON S 16 E / 230 V – connection plug and photo cell with 5 m cable (recessed version / built-in version)
Accessories	
MA11041-1	Additional charge for photo cell with cable of 10 m
MA11041-2	Additional charge for photo cell with cable of 15 m
7095005	Colour if different from RAL 5002 (e.g. white, RAL 1013)
MA11000-98	Packing overland freight
